Founded this digital agency — the world's first Pay-Per-Call performance marketing service . Grew it to over 200 clients via a productized service offering and a formalized sales strategy.

- Architected a toll free phone call-tracking system using open source software and spreadsheets. I also built an automated billing system that integrated with authorize.net payment gateway.
- The key to the success of this business was my **sales management & coaching skills**, the smart sales playbook & sales collateral I developed, and my motivating commission structure which attracted **top salespeople who I hired and managed**. I'm also fun to work with!

Sales Executive — [Web Media Online Advertising](#) 2003 - 2005

Direct Sales. We take Visa, Mastercard, and American Express ... which will it be?

- Sold all manner of SEM / SEO / PPC / CPA / CPM internet advertising media as an independent rep for multiple firms in LA and SF. Purchased traffic at a discount and ran my own affiliate offers.

Managed cross-functional, multi-disciplinary project teams for web development engagements w/ budgets ranging from \$1 to \$3 million. Full accountability for cost / schedule / quality for the client — **and overall P&L for the agency** — which required a comprehensive understanding of financial and operational metrics and levers.

- Learned the necessary soft-skills to motivate team members — when you have all the responsibility, and no direct authority. Learned to clarify ambiguous requirements, identify hidden stakeholders, and influence client decisions.
- Implemented project risk-identification practices & change control procedures. Implemented the best parts of Agile, Scrum, PMI PMBOK, and Rational Unified methodologies.
