MORE 

Founder / Sales Manager — [Wildwood Hills Search Marketing](#) 2004 - 2009

- ✓ Founded this successful business-to-consumer internet advertising agency & grew it to over 200 clients via a productized service offering and a formalized, documented sales strategy.

Origin Story: After 2 years selling web advertising for other firms, I realized that most businesses in your local yellow pages didn't understand the value of online marketing. Business Owners really wanted phone calls from new prospects – so I incorporated an LLC & launched the world's first Pay-Per-Call performance marketing service.

- Architected a toll free phone number-farm & call-tracking system using open source software and spreadsheets. I also built an automated billing system that integrated with authorize.net.
- The key to the success of this business was the smart sales playbook & sales collateral I developed, my sales management & coaching skills, and the motivating commission structure which attracted **top salespeople who I hired and managed.**

Sales Executive — [Web Media Online Advertising](#) 2003 - 2005

- ✓ Direct Sales. We take Visa, Mastercard, and American Express ... which will it be?

- Sold all manner of CPC / CPA / CPM internet advertising media as an independent rep for multiple firms in LA and SF. Purchased traffic at a discount and ran my own affiliate offers.

Online Marketing Specialist — [Warner Bros. Online](#) 2001 - 2003

- ✓ I was hired for hands-on viral marketing of home video releases (on DVD) for titles like The Matrix, Harry Potter & Scooby Doo. Generated millions of impressions for these global brands, contributing to gross sales around release dates.

Technical Project Manager — [Razorfish](#) 1998 - 2001

- ✓ Managed cross-functional, multi-disciplinary project teams for web development engagements w/ budgets ranging from \$1 to \$3 million. Full accountability for cost / schedule / quality for the client — **and overall P&L for the agency** — which required a comprehensive understanding of financial and operational metrics and levers.

- Learned the necessary soft-skills to motivate team members — when you have all the responsibility, and no direct authority. Learned to clarify ambiguous requirements, identify hidden stakeholders, and influence client decisions.
- Implemented project risk-identification practices & change control procedures. Implemented the best parts of Agile, Scrum, PMI PMBOK, and UML / Rational Unified methodologies.

Web Developer & User Interface Designer (UI / UX) — [Move.com](#) 1996 - 1998

- ✓ HTML / CSS / JavaScript. Vested + IPO during my tenure.
